FOREWORD

This pamphlet contains a distribution of military prime contract awards of \$10,000 or more each by Service Category and Federal Supply Classification for fiscal years 1973, 1974, 1975, and 1976.

The report consists of three sections:

1. Section A covers awards for research, development, test and evaluation work (RDT&E). The RDT&E categories used are the standard Department of Defense Claimant Programs. These procurement program definitions are identical with those prescribed for use in the Defense Materials System. Each category of RDT&E work has been divided into four kinds of RDT&E work, as described in the Armed Services Procurement Regulation 4-101.

2. Section B covers Other Services and Construction. The 15 major divisions and approximately 160 individual classes were developed specifically for prime contract reporting and are considered to be self-explanatory.

3. Section C covers the Federal Supply Classification structure composed of 74 groups and approximately 585 individual classes. This system was developed primarily for supply management of items known to be in the supply system of the Federal Government. Definitions of the Classes appear in the Cataloging Handbook, Federal Supply Classification, Part 1, Groups and Classes, H2-1, which may be purchased from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

While there is comparability between the Federal Supply Classes used in this publication and the Standard Industrial Product Codes used by the Census Bureau of the Department of Commerce, the exact points of agreement and disagreement have not been ascertained. Moreover, it should be observed that in many of the Census reports, the SIC data are based on the principal product of an establishment, rather than on the individual products produced by that establishment. In addition to differences in code content, data from this pamphlet and certain Bureau of the Census reports do not coincide as to period covered or as to point in time when reported. The former are fiscal year figures measuring contract awards before delivery has taken place, while the latter are calendar year figures measuring shipments or production which may take place several years after the contract award.

The following characteristics of the material presented in this pamphlet should be noted:

Data cover only prime contracts (those placed directly by the Department of Defense) and do not reflect the large amounts of subcontracts for basic and intermediate materials and components. Thus, for example, most of the steel plate for ships is purchased by Defense prime contractors, and only a small portion is obtained by direct DoD purchase (see Code 9515). Similarly, a large dollar amount of electronics is purchased by Defense contractors who have received prime contracts for missiles and other weapons systems.

Contracts and purchases below \$10,000 each for which product and service information is not collected are excluded. In each of the fiscal years 1973 through 1976, these small transactions totaled from \$4 to \$5 billion. This exclusion tends to understate procurement of commercial type items and services more than military hard goods items which usually are bought in large dollar amounts. It is known, for example, that Subsistence (FS Group 89) is severely understated for this reason. However, information concerning the composition of the small purchases is not sufficient to identify all the categories of commodities and services which are affected to an important degree.

For security reasons, various contracts have been reported with a classification other than the one describing the item purchased. Therefore, data for a number of the Federal Supply Classes shown are incomplete.

The report covers procurement from all sources; that is, from educational and non-profit institutions, other Federal Government agencies and foreign contractors, as well as from U. S. business concerns. In this respect, figures differ from other commodity data published by this office which have been limited to contracts placed with U. S. business concerns. The amounts, in billions of dollars, procured from the four major sources in transactions of more than \$10,000 each were as follows:

<u>Source</u>	<u>FY 1973</u>	<u>FY 1974</u>	<u>FY 1975</u>	<u>FY 1976</u>
U. S. Business Concerns	\$ 27.2	\$ 29.6	\$ 33.0	\$ 33.4
U. S. Educational and Non-Profit Institutions	.7	.7	.8	.8
Federal Government Agencies Outside Defense	2.6	2.9	4.5	5.7
Contractors in Foreign Countries	2.0	2.2	2.2	2.0
Civilian Health & Medical Program of the Uniformed Services (CHAMPUS)	.3	.4	.4	*
TOTAL	\$ 32.8	\$ 35.8	\$ 40.9	\$ 42.0

* \$14 million

As shown in the foregoing table, military prime contract awards increased by \$1.1 billion or 2.7% from fiscal year 1975.

RDT&E work increased by \$569 million (9.0%) in fiscal year 1976 (Part A). There was an increase in other development from \$5,027 million to \$5,364 million, in management and support from \$512 million to \$639 million, in exploratory development from \$530 million to \$593 million, and in research from \$234 million to \$276 million.

Construction and services other than RDT&E decreased by \$845 million or 7.7% from fiscal year 1975 to fiscal year 1976. This summary is shown in Part B. The category J5 "Maintenance and/or Repair of Equipment" increased by \$952 million but this was offset by large decreases in K5 "Modification, Alteration and/or Rebuild of Equipment" (\$415 million), R6 "Architect, Engineer and/or Consultant Services" (\$394 million), Y9 "Construction" (\$372 million), and Q6 "Medical Services" (\$342 million). The decrease in "Medical Services" was due to a change in reporting procedures and not a decrease in the actual services.

Supplies and Equipment (shown in Part C) increased by \$1,344 million (5.7%) in fiscal year 1976. The category with the largest increase was "Ships, Small Craft, Pontoons, and Floating Docks" (Federal Supply Group 19). The dollar volume increase for this group was \$988 million or 58.2% more than in fiscal year 1975. The second largest change was for "Motor Vehicles, Trailers, and Cycles" (Federal Supply Group 23). This category increased by \$499 million (105.1%). The Federal supply groups with changes of \$100 million or more, plus or minus, are shown in the table below:

(In Millions of Dollars)

FS GROUP		FY 1976	FY 1975	Change	
				Amount	Percent
19	Ships, Small Craft, Pontoons, and Floating Docks	\$2,687	\$1,699	+\$988	+ 58.2%
23	Motor Vehicles, Trailers, and Cycles	974	475	+ 499	+105.1
13	Ammunition and Explosives	718	1,117	- 399	- 35.7
15	Aircraft and Airframe Structural Components	4,202	3,990	+ 212	+ 5.3
28	Engines, Turbines, and Components	1,938	1,766	+ 172	+ 9.7
25	Vehicular Equipment Components	262	425	- 163	- 38.4
66	Instruments and Laboratory Equipment	505	651	- 146	- 22.4
14	Guided Missiles	2,611	2,740	- 129	- 4.7
12	Fire Control Equipment	399	272	+ 127	+ 46.7
84	Clothing and Individual Equipment	410	297	+ 113	+ 38.0
